

Pachamama is a Quechua word referring to the sacred presence of Earth, the sky, the universe and all time.

The Pachamama Alliance was born in response to a request from the Achuar, an indigenous people deep in the Amazon region of Ecuador. They were seeking a partnership with people from the modern world who could aid them in protecting the rain forest and their way of life. Out of this partnership, we have come to recognize that indigenous insight can make a critical contribution in helping us address the complex issues we face in our modern world.

The Pachamama Alliance's two-fold mission:

- To preserve the Earth's tropical rainforests by empowering the indigenous people who are its natural custodians.
- To contribute to the creation of a new global vision of equity and sustainability for all.

Symposium*

If you have ever asked, "Where are we in terms of sustainability, spiritual fulfillment and social justice?" and, "What is possible now? --this symposium is for you.

The purpose of the Symposium is:

To bring about a human presence on Earth that is environmentally sustainable, socially just, and spiritually fulfilling.

We explore four key questions:

1. WHERE ARE WE?

Using consensus data from experts, we will look at where we are in relation to environmental sustainability, social justice and spiritual fulfillment.

2. HOW DID WE GET HERE?

What are the root causes?

3. WHAT IS EMERGING FOR THE FUTURE?

What is happening now?

4. WHERE DO WE GO FROM HERE?

What does this mean for us personally and collectively?

Featuring video clips from some of the world's most respected thinkers, along with inspiring short films, leading edge information and dynamic group interactions, the Symposium allows participants to gain a new insight into the very nature of our time and the opportunity we have to shape and impact the direction of our world.
